## Quick start guide

ML17928

Two-line corded telephone  
with caller ID/call waiting

# Installation preparation

You must install the power adapter before using the telephone.

See pages 3-4 for easy instructions.

If you subscribe to high speed Internet service (DSL - digital subscriber line) through your telephone line, you must install a DSL filter between each telephone line cord and telephone wall jack (pages 3 and 4). The filter prevents noise and caller ID problems caused by DSL interference. Please contact your DSL service provider for more information about DSL filters.

Your product may be shipped with a protective sticker covering the telephone base display - remove it before use.

For customer service or product information, visit our website at **[www.telephones.att.com](http://www.telephones.att.com)** or call **1 (800) 222-3111**. In Canada, dial **1 (866) 288-4268**.

## **Avoid placing the telephone base too close to:**

- Communication devices such as television sets, VCRs, or cordless telephones.
- Excessive heat sources.
- Noise sources such as a window with traffic outside, motors, microwave ovens, refrigerators, or fluorescent lighting.
- Excessive dust sources such as a workshop or garage.
- Excessive moisture.
- Extremely low temperature.
- Mechanical vibration or shock such as on top of a washing machine or work bench.

This quick start guide provides basic instructions. For additional installation options and complete instructions that enable you to use all features of this telephone, refer to your AT&T ML17928 Two-line corded telephone with caller ID/call waiting user's manual.

## Telephone installation

### Telephone base installation

---

1. Install the mounting bracket for tabletop use.

**Option 1:** To install your telephone in a low tabletop position, insert the fixed tabs of the mounting bracket into the slots labeled (a). Press the flexible tabs into the slots labeled (b) until they click into place.

Mounting bracket

Option 1: Low tabletop position

**Option 2:** To install your telephone in a high tabletop position, insert the fixed tabs of the mounting bracket into the slots labeled (b). Press the flexible tabs into the slots labeled (a) until they click into place.

Mounting bracket

Option 2: High tabletop position

# Telephone installation

2. Connect the telephone line cord(s) and the power cord to the telephone base.

If you subscribe to high speed Internet service (DSL - digital subscriber line) through your telephone line, you must install a DSL filter between each telephone line cord and telephone wall jack. The filter prevents noise and caller ID problems caused by DSL interference. Please contact your DSL service provider for more information about DSL filters.

**Option 1:** If you have a two-line wall jack, install your telephone base, as shown below.

Plug the other end of the black telephone line cord (4-conductor) into the wall jack.

## NOTES:

- Use only the power adapter supplied with this product. To order a replacement power adapter, visit our website at [www.telephones.att.com](http://www.telephones.att.com), or call **1 (800) 222-3111**. In Canada, dial **1 (866) 288-4268**.
- The power adapter is intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.

# Telephone installation

**Option 2:** If you have two one-line wall jacks, install your telephone base, as shown below.

## **NOTES:**

- Use only the power adapter supplied with this product. To order a replacement power adapter, visit our website at [www.telephones.att.com](http://www.telephones.att.com), or call **1 (800) 222-3111**. In Canada, dial **1 (866) 288-4268**.
- The power adapter is intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.

# Quick reference guide

## **CID** ◀

Press to display call history information when the telephone is idle.

When entering numbers or names, press to move the cursor to the left.

## **LINE 1, LINE 2**

Press to make or answer a call on the selected line.

## **CONF**

Press to initiate a three-way conference call.

## **HOLD**

Press to place a call on hold.

## **REDIAL**

Press to dial the last number dialed when the telephone is off hook.

When the telephone is idle, press to display the last five numbers dialed. You can choose to dial a displayed number.

## **FLASH**

During a call, press to answer an incoming call when you receive a call waiting alert.

## **PAUSE**

Press to insert a two-second dialing pause in a number stored in the speed dial memory or directory.

## ▼/▲

While in a menu, press to scroll up or down.

## ▶/DIR

Press to enter the directory when the telephone is idle.

When entering numbers or names, press to move the cursor to the right.

## **MENU/ENTER**

Press to enter the main menu.  
While in a menu, press to choose an item, or save an entry or setting.

## **CANCEL**

Press to cancel an operation and go back to the previous menu.

Press and hold to return to idle mode.
